When you leave the Balboa Inn to the main street where you took a left turn (our staff will have given instructions), you'll see the situation below within 1/3 mile. Keep left.

You'll see this underpass; keep right and take the first right after the underpass.

After about 150 yards, you'll take a right again which takes you back on Avenida de los Martires. The two pictures make it all very clear.

Within seconds you'll see an ESSO gas station on your right hand, continue straight for about 1/2 mile; there will be a traffic light. Continue straight but keep the right lane now. Within 1/3 mile you'll see the ramp below which will take you to Avenida Balboa via an overpass.

Soon you'll see the new 'Cinta Costera' It's really a great improvement.

Follow it to the end and take the ramp up to 'Corredor Sur'. This 13 mile toll way will take you straight to the Tocumen airport.

You'll pass two toll boots (as of today 90 cts. and 1.40 cts.) One mile before the airport you'll see a sign 'Aeropuerto Tocumen' exit the tollway via the exit ramp on your right. The airport is within eyesight now.

Have a great flight and thank you for staying at the Balboa Inn!
